

## **FIA Region I Evening Debate**

6 November, 18.30 – 21.30

With the start of the new term of the term of the European Union, FIA Region I is holding a special high level invitation only evening debate with members of FIA Region I, Members of the European Parliament and officials from the European Commission.

The event will focus on the key issues facing mobility users over the coming years, and in particular:

- FIA Region I will present its Manifesto for Mobility showcasing the key priorities of the organisation over the next five years.
- A dedicated focus will be put on connectivity and what it means from the mobility user perspective. In particular, discussions will focus on the digitalisation of the automobile, access to vehicle data and wider issues needed to advance opportunities such as Mobility as a Service.
